CUSTOMIZED RAS (RECIRCULATING AQUACULTURE SYSTEM) FOR INDOOR CRAB FARMING

Indoor-Vertical Crab farming system & Outdoor-Open Pond Crab Farming system provides a separate aquaculture box for every crab, preventing fighting and cannibalism. Vertical crab boxes setup is ideal for temporary rearing / storing, fattening and breeding of crabs. The system provides the crab with the needed environment to stay alive. The setup is also used in many places for fattening and breeding of both hard-shell crab and soft-shell crab farming.
